Projects

Boombastic Bathbombs / Three.js e-commerce
JAVASCRIPT, THREE.JS, HTML, CSS / GITHUB / LIVE PREVIEW

An e-commerce website built for a fictional bath goods company. Contains a fully functional cart and product filter system built entirely in vanilla JS, as well as a landing page built in Three.js with 3D models.

Quote Merger / API quote merger
JAVASCRIPT, REST API, HTML, CSS / GITHUB / LIVE PREVIEW

This project pulls, filters, chunks and mixes up two quotes pulled from Quotable API, including proper query response management.

Violet-Arch Architecture / Website redesign
JAVASCRIPT, HTML, CSS, PHP / GITHUB / LIVE PREVIEW

A fully responsive redesign of "Pracownia Projektowa Violet-Arch" website with an infinite testimonial carousel, contact form and image gallery.

Education

Graphic Design / BA
2017 - 2020, UNIVERSITY OF THE ARTS POZNAN

Relevant courses: Internet Technologies, Visual Identity, Typography, Psychophysiology of Perception

Nanotechnology / BE
2013 - 2017, GDANSK UNIVERSITY OF TECHNOLOGY

Relevant courses: Mathematical Analysis, Basics of Operating Systems and Programming, Linear Algebra, Management Systems

Experience

Violet-Arch Architecture / Project Manager
2018 - PRESENT, STARGARD

Responsibilities: Coordination and division of work across 20+ ongoing projects, communication with investors and contractors, preparing and ensuring timely delivery of high quality documentation.

Key successes: Created a custom-scripted Google Sheets logging system to keep track of task status, which has shortened project completion by 50% and improved employee accountability.

Adobe CC: Illustrator • Photoshop • Xd • InDesign After Effects • Premiere Pro • Lightroom

Other skills: UI/UX • logo/icon design • problem solving • work organization • project management • teamwork • creativity • fast learning

Bio

As a highly curious person, I've always been passionate about investigating the underlying logic of technology, art and fellow human beings. I've chosen front-end web development because I see it as the perfect mix of all all three.

In downtime, I greatly enjoy hiking in nature, drawing, studying psychology/sociology and learning Japanese.

Languages

Polish: Native

English: Advanced (C2), Certificate in Advanced English
